

To ensure the best user experience we recommend you update your Firefox browser settings to the following:

## Recommended Browser Settings

---

1. From the menu bar , click on **Tools**
2. Select **Options**
  1. Select **Privacy**
  2. Under the **History** section, check one of the below
    - a. **Remember History** (default setting)
    - b. **Custom Settings for history**
      - Checkmark the **Accept cookies from Sites** and **Accept Third-Party Cookies** boxes
      - Set the **Keep Until** dropdown option value to **They Expire**

## Third-Party Cookies Exceptions

---

If you do not wish to enable accepting of third-party cookies, you can add a specific address to the exception list so that you can access [e-statements](#) while still blocking third-party cookies.

1. From the menu bar , click on **Tools**
2. Select **Options**
3. Select **Privacy**
4. Under the **History** section
  - a. **Custom Settings for history**
    - Click **Exceptions...**
    - Set the **Keep Until** dropdown option value to **They Expire**
    - Type in: **docuhost-net.com**
    - Click **Allow**
    - Click **Save Changes**
