

To ensure the best user experience, we recommend you update your Firefox browser settings to the following.

Enable Third-Party Cookies

1. From the menu bar , click on “Tools.”
2. Select “Options.”
3. Select “Privacy” and choose one of the following options.
 - “Remember History”, or
 - Use “Custom Settings for history”
 - a. Check (ON) the “Accept cookies from Sites” and “Accept Third-Party Cookies boxes.”
 - b. Set the “Keep Until” dropdown option value to “They Expire.”

If you do not want to enable accept third-party cookies, you can add a specific address to the exception list so that you can access [e-statements](#) while still blocking third-party cookies.

4. Select “Options.”
5. Select “Privacy.”
6. Click the “Exceptions...” button.
7. Enter [docuhost-net.com](#) to enable access to e-statements.
8. Click “Allow.”
9. Click “Close.”
